Sydney Bus Charter Group – Surcharges	
To allow efficient operations we at times will need to apply <u>surcharges</u> – this will be due to several factors: - Day of use: we have days where ALL buses will be used, with an extremely high demand, and others with very little - Distance from depot: one of our most expensive elements of operations is our travel to our pickup locations – any pickup within a 20km radius has NO surcharge however those <u>further</u> than <u>20km</u> and <u>less than 90km</u> will have \$100 added to accommodate our fuel and toll costs	
Monday	Standard rate (price /km)
